

AMERICAN OSTEOPATHIC ACADEMY OF ORTHOPEDICS

21st ANNUAL OSTEOPATHIC, Educators', Course

Thursday, May 2, 2013

Loews Miami Beach Hotel • Miami Beach, FL

21st Annual Osteopathic Educators' Course

for Osteopathic Orthopedic Surgery Program Directors and Trainers

May 2, 2013 • Loews Miami Beach Hotel • Miami, FL

Course Objectives

The goal of the Educators' Course is to offer a diversified program of continuing education for the surgical specialty of orthopedics and to keep Osteopathic Orthopedic Surgical Residency Program Directors and Trainers informed regarding recent educational developments and techniques.

These objectives will be achieved through panel discussions, symposia and lectures, as well as questions from participants and answers from presenters.

At the completion of this meeting, orthopedic surgeons associated with training programs will:

- Be more familiar with recent educational techniques in training residents.
- Be more aware of residency program training requirements and educational standards.

Based on participant comments from previous courses, concurrent sessions will be offered in a two-track format to meet the needs of both orthopedic residency program directors and trainers. Each session will offer opportunities for participant interaction in small group discussions.

AOA CME Credits

Approval of 9 AOA Category 1-AFD credits has been granted by the AOA Council on Continuing Medical Education. Participants will be required to sign in. Questions concerning CME credits should be directed to the AOA office at 804-565-6370. Certificates of attendance will be prepared for all attendees and an official roster of attendees and appropriate number of CME credits earned by each attendee will be provided to the American Osteopathic Association.

Credit for this program will only be given to those attendees who register, complete and return the program evaluation form with only the number of hours attended.

Disclaimer

The material presented at the Osteopathic Educators' Course has been made available by the American Osteopathic Academy of Orthopedics for educational purposes only. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement or opinion of the faculty which may be helpful to others who face similar situations. The AOA disclaims any and all liability for injury or other damages resulting to any individual attending a session and for all claims which may arise out of the use of the techniques demonstrated therein by such individuals whether these claims shall be asserted by a physician or any other person.
